Name of Runner: ______________________________

The Maya Centre provides free counselling and other therapeutic services to women of all ages living on or below the poverty line in Islington. This means that The Maya Centre only sees those in greatest need. Their counsellors work with women who would otherwise find it difficult to access long-term counselling and support. To ensure that their vital work continues, I am running in the **Adidas Women's 5K Challenge** on Sunday, 6th September 2009, in Hyde Park. Each runner is aiming to raise £500 or more. I would be very grateful for any support that you can give.
